PROFESSIONAL SUMMARY

Versatile BCA graduate who combines two years of classroom teaching experience with hands-on full-stack development skills in Python, Flask, and MongoDB. Skilled at explaining complex ideas clearly, designing engaging learning activities, and building functional web applications end-to-end. Comfortable in both education and technology roles, with a strong record of quick learning, reliability, and collaborative problem-solving.

CORE SKILLS

Programming Languages: Python, Java, C, C++, SQL

Web Development: HTML, CSS, JavaScript, Bootstrap, Flask, REST APIs

Databases: MongoDB, MySQL, SQLite

Tools & Platforms: Git, GitHub, VS Code, Canva, MS Word/Excel/PowerPoint

Teaching & Classroom: Lesson planning, student assessment, classroom management, activity design

Professional Strengths: Communication, adaptability, leadership, time management, problem-solving

WORK EXPERIENCE

Primary School Teacher | Pathshala Kids School, Sri Ganganagar, Rajasthan Apr 2024 – Mar 2026

- Planned and delivered engaging lessons for primary-level students, adapting teaching methods to different learning paces.
- Assessed student performance regularly and gave targeted feedback to support academic growth.
- Designed hands-on learning activities that measurably improved classroom participation and understanding.
- Collaborated with fellow teachers to plan and run school events and academic programs.
- Built strong communication, classroom management, and leadership skills through daily student interaction.

PROJECTS

Smart Personal Finance & Debt Management System Jun 2025 – Aug 2025

Python, Flask, MongoDB, Bootstrap

- Architected and developed a full-stack personal finance management application enabling users to track income, expenses, budgets, and debt repayments in a centralized platform.
- Engineered a real-time expense-tracking module integrated with monthly budget planning to improve financial visibility and spending discipline.
- Designed an interactive analytics dashboard to visualize spending trends and financial data, enabling data-driven financial decisions.
- Automated generation of downloadable PDF reports for monthly financial summaries, streamlining record-keeping for end users.

E-Learning Platform Jan 2026 – May 2026

Python, Flask, MongoDB, HTML, CSS, Bootstrap

- Designed and developed a full-stack e-learning platform with distinct student and teacher modules to support course delivery and academic tracking.
- Implemented secure authentication and role-based access control to safeguard user data and manage course administration.
- Built quiz, assignment, and progress-tracking features to enhance student engagement and enable performance monitoring.
- Delivered a responsive, user-friendly interface using HTML, CSS, and Bootstrap, backed by a SQLite database for managing users, courses, and progress records.
